# READJUSTMENT OF HOSPITAL BOARD SUGGESTED

## Youths Plead Guilty To Theft of Auto

### Quartette Before Court After Raid On Goldstream Camp

Ric Hillyer and James Arnold Admit Stealing Car Belonging to Ray Castle; Girl Companion Weeps as Charge of Vagrancy Read; Provincial Police Recover Quantity of Goods From Hidden Haul

### JEWELRY AND POOR FUND IN ROBBER'S HAUL

Former Soldier Confesses to Raiding Boxes of Esquimalt Churches

Ransacked Home For Jewelry and Entered Quadra Street Store

Raids on poor boxes of Esquimalt churches, thefts of jewelry from a home in the residential district of Victoria and robbery of a store on Quadra Street were instigated in the operations of Frank Williams, alias Albert LeClere, thirty-five-year-old ex-soldier, who pleaded guilty to three new charges in the City Police Court this morning.

Yesterday Williams pleaded guilty to a robbery at the store of James Little on Quadra Street.

At the request of the prosecution he was remanded until to-morrow for sentence. Police are investigating his activities further.

The charges before Williams this morning, to which he pleaded guilty, dealt with offenses in the municipality of Esquimalt. They were:

Breaking and entering the home of Major W. H. Dobble, 1376 Esquimalt Road, and committing theft.

Breaking and entering St. Paul's Church and committing theft.

Breaking and entering the Esquimalt United Church and committing theft.

All were alleged to have taken place last Saturday. A large amount of jewelry was taken from the home of Major Dobble, and the poor boxes at both churches were ransacked about the time taken.

City Prosecutor Harrison informed the court that the police were still investigating and would like the accused remanded for sentence.

**THE Sudden coup culminated a day prior to trial, and an unending investigation of a number of thefts, automobile owners, particularly have suffered from petty larceny during recent months.**

**ARTICLES PITCHED**

The quartette had tents pitched at the side of a road leading off the Old Goldstream Road, at the foot of Mount Douglas, and it was known as Moody's cabin. They were preparing to move into the cabin when police arrived.

The two men were the first to make their appearance in court this morning. Little more than half an hour later, they spoke in undertones when offering a guilty plea to the charge of stealing Mr. Castle's automobile. They did not have a cause.

City Prosecutor C. L. Harrison requested the adjournment for sentence.

(Concluded on Page 2)

**TELLS HOW CITY IMPROVED UNDER RELIEF MEASURES**

Unemployed Have Constructed Over Five Miles of New Streets Here

Construction work accomplished through unemployment relief work in Victoria since the programme started last fall includes five and one-quarter miles of new streets, two-thirds of a mile of sewers, one and one-half miles of water mains, one and two-thirds of a mile of water mains. Mayor Ancombe informed the City Council this morning when presenting a plan prepared by the city engineer showing the work completed under the scheme.

"It is time the people knew what has been done in this direction so that we can see the time spent for unemployment relief has not been wasted."

On top of this, of course, there has also been the establishment of the wood-cutting camps and the clearing of the McDonald estate in James Bay.

He said: "Alderman R. A. C. Dewar remarked in his speech that this would like to see a definite programme or improvement undertaken for Beacon Hill Park. The tourist trade was Victoria's main asset and if something could be done along the lines adopted in Stanley Park at Vancouver, it would be of great benefit, he thought."

**WHEAT IS BEING HARVESTED IN PARTS OF SASKATCHEWAN**

Canadian Press  
Regina, Aug. 11.—Harvesting of wheat there is well general throughout Saskatchewan next week, according to a crop report of the Department of Agriculture here. Already some districts have started to cut and others will commence over the east-and-west line.

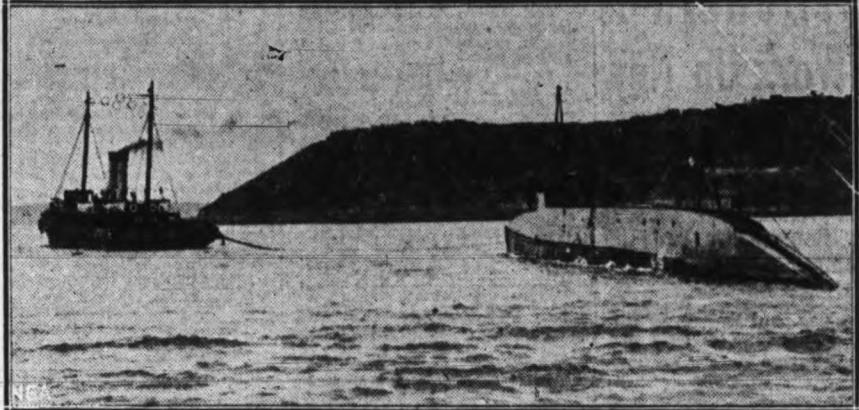

Moisture conditions improved considerably in the last ten days, and many areas of many areas who at one time expected any crop at all are now

assured of feed, and in some cases of seed as well.

"The grain crops in southern and central Saskatchewan," the report continues, "vary from complete failure to the possibility of seed. In the north they vary, generally, according to the reports. Traces of frost on the late grain in a few scattered areas are reported, but it is not likely damage from that source will be material."

"Livestock is in fair condition, and pastures should improve as a result of the recent rains."

#### SMART WRITERS INNOCUOUS, SAYS KIWANIS HEAD

Sinclair Lewis and Mencken Saw Only Luncheon Side, F. C. W. Parker Says

International Secretary, Here From Chicago, Tells of Club's Community Service

ATTACKS ON KIWANIS

Attack by H. L. Mencken, Sinclair Lewis and other modern writers on Kiwanis, Rotary and other service institutions have won themselves without any injury to these organizations, whose prestige has grown greater than ever, proving just how faulty the writer's were, says F. C. W. Parker, of Chicago, secretary of International Kiwanis. On his arrival here to-day to meet the Western Canadian club.

"All of Mencken's and Sinclair Lewis' smart writing has never done us any harm," he said. "They are using snap judgment on the propensities of our members without any injury to these organizations, whose prestige has grown greater than ever, proving just how faulty the writer's were, says F. C. W. Parker, of Chicago, secretary of International Kiwanis. On his arrival here to-day to meet the Western Canadian club.

# Lindbergh Plane Alights On Nome River

## C. R. Harold, Seattle, Leads Early Scorers In Seniors' Tourney

Class "D" Veteran Scores Fine 78 in Eighteen-hole Qualifying Round of Ninth Annual Seniors' Northwest Golf Association Tournament Which Opened To-day at Oak Bay; J. A. Byerly, Portland, Defending Champ, Scores Disastrous 90

With a splendid gross score of 78, C. R. Harold, Seattle, "D" class player, was leading the qualifiers in the ninth annual Seniors' Northwest Golf Association championship up to an early hour this afternoon. Consistent play, in spite of the stiff breeze that prevailed over the Victoria Golf Club's course at Oak Bay, brought the lead to the Seattle player.

J. A. Byerly, Portland, defending champion, required 80 strokes to negotiate the eighteen holes and may not qualify for the grand championship. At noon he was already outside of the first sixteen, and his only chance was for some of the entrants to withdraw from the grand into the consolation class. Byerly evidently did not feel at home in his position of defending champion and his golf was far below what he is capable of.

J. H. Fuller, Aberdeen, runner-up in last year's championship at Colwood, finished with an 82.

Two strokes behind Harold came Col. J. R. Fell, Vancouver, with a card of 82.

In third place among the early starters were A. T. Gould, Victoria, and L. Howard, Seattle, both of whom had 81. T. S. McPherson, Victoria, and R. S. Farrell, Portland, required 83 strokes, and the rest of the field were strung out from 84 all the way to 109. "Joe" Wilson, Victoria, totalled 87.

Gross scores follow, with the letter following the names denoting the class:

C. R. Harold, Seattle, D. 78.

Col. J. R. Fell, Vancouver, D. 80.

A. T. Gould, Victoria, D. 81.

L. Howard, Seattle, C. 81.

J. H. Fuller, Aberdeen, C. 82.

T. S. McPherson, Victoria, D. 83.

R. S. Farrell, Portland, C. 83.

J. H. Bloedel, Seattle, B. 84.

J. Lewis, New Westminster, C. 85.

George R. Carter, Tacoma, C. 85.

R. W. Wilbur, Portland, C. 86.

W. H. Lushby, New Westminster, C. 95.

Dr. A. E. Mackay, Portland, B. 101.

A. W. Blake, Vancouver, D. 102.

J. B. Giffen, Vancouver, C. 105.

George A. Todd, Tacoma, D. 108.

L. I. Hyland, Seattle, D. 109.

**BENNETT CANDIDATE DEFEATED IN HAMILTON AND VOTE IN THREE RIVERS, QUE., IS CLOSE**

(Continued from Page 1)

Mr. Bourgeois' majority was reduced to 11 votes from three of Three Rivers, St. Etienne, St. Mathieu and St. Flore East. The detailed votes by districts were not available to-day, but revised majorities reported brought the figure to 45, where it may remain until the official declaration.

Mr. Gariépy was prominent for years in Alberta politics. He was a member of the Sifton cabinet.

INTEREST IN OTTAWA

Ottawa, Aug. 11.—With Charles Bourgeois, Conservative, leading in Three Rivers-St. Maurice, Que., and Humphrey Mitchell, Labor, elected as representative for Hamilton East, Ontario, a result of two federal by-elections yesterday, political parties in Ottawa today were reflecting on the switch of party adherence in the constituencies. Compared with the polling in the general election of July 28, 1930, the vote cast yesterday was light, falling short by nearly 3,000 to Hamilton and over 1,000 to Three Rivers.

While both constituencies are industrial, Three Rivers also has a large rural area.

In Ottawa, Conservatives attribute the Ontario reverse to a combined Labor and Liberal vote, at the same time recalling that the Conservative party which ordinarily gave the Conservative Party a substantial vote, failed yesterday to do so. Many residents of that section, it was stated here to-day, were living at their summer homes at Burlington and had failed to register their vote. As a result, the opposition said, the administration made the vote reflect Hamilton's attitude toward the government, particularly since the "Ambitious City" has a serious unemployment problem on its hands.

The Three Rivers result is interesting to observers in view of the approaching provincial general election, set August 24.

The two by-elections yesterday produced the first test of political strength since the general election of 1930. All ministers chosen for the Conservative Cabinet were returned by acclamation last summer on their appointment to portfolios.

If Bourgeois occupies the Three Rivers seat in the House, the standing division will be 107 to 93, Conservative 86; U.P.A. 9; Progressives, 3; Liberal Progressives, 3; Labor, 4; Independents, 2. Total, 245.

### Y RECEIVES REPORT OF INVESTIGATION INTO AFFAIRS OF JUBILEE

(Continued From Page 1)

three representatives to the board, by their attendance, may be of service to the institution.

#### TORS ON BOARD

question the advisability of accepting three members from the Victoria Medical Society. I feel that it is the wish of the board of directors that the Victoria Medical Society should have representation on the board, that one member of the society should be sufficient. Also that consulting staff of the hospital should be represented on the board of directors as a staff, for I understand none of the three delegates this from the Victoria Medical Society on the consulting staff of the hospital, except as an honorary appointment. This year, as it will occur other years, is not actually represented on the board of directors.

#### ACTORAL PERIOD

I understand that all members of the board of directors are elected annually and for one year. Might I suggest that members of the board of directors elected for a period of two or three years, with a percentage of the board giving up their seats, be eligible for election. It is doubtful if the average voter is of real value to the hospital, all he has served at least a year, and under the present plan of organization most valuable member of the board of directors may be dropped when he becomes most useful.

#### LAW'S OUT OF DATE

I was not able to secure any by-laws, rules or regulations of a later date than January 27, 1922. I will refer in detail to these rules and regulations, to show that the hospital is not operating under these at the present time, nor is it possible for the hospital with its present organizations, to operate under these rules, which evidently were written to meet the requirements of the hospital, but rather an attitude of mind, however, that a member of the board of directors kindly consented two years ago to draw up new laws, etc., but to date these have been forthcoming. I would suggest that it would be in the best interest of the hospital to by-laws, rules and regulations to meet the present conditions be enacted as early as possible.

#### BUSINESS ADMINISTRATION

I noted from the minutes of the board on February 21, 1930, that a policy committee was appointed. I am unable to find any result of their activities, and gathered the impression that the community at large there is little or no antagonism towards the hospital, but rather an attitude of mind, and for that reason would suggest that the board of directors ought to carry on continuously, and that the well-informed public is of greatest assistance in upholding the morale of the institution, and strengthens the hands of the board of directors to a marked extent. In this regard I would suggest that an annual report be published in circulation, as a permanent dry-run, which would contain a summary of the year's work of each department; that, if possible, addresses be given before service clubs, church organizations, taxpayers' associations, etc., with a view bringing before them the successes, failures and needs of the hospital, and that such reports as might be invited to the hospital once a year for luncheon, after which could be shown over the hospital by members of the nursing staff. A publication or pamphlet, illustrated, if possible, showing the various activities of the hospital; that the interest of the press be solicited and that the general public life of the hospital be given publicity in this manner. It is generally understood that the press are anxious for information, and are willing to aid their support.

I mention this subject of publicity, I feel that with your increasing interests, city councils and provincial governments, you would consider your requests for increased assistance if they feel that the public are behind these requests.

#### RISING DEPARTMENTS AND TRAINING SCHOOL

During my visit I heard criticisms to the effect that there were more nurses on duty in the hospital than are necessary, and also criticisms to the effect that there were not sufficient nurses. Due to the absence of the training school, on vacation, I was unable to discuss this with her.

The nursing staff consists of the following: sixteen graduates, including the director of nurses, 142 students made up as follows: First year, 53; second year, 46; third year, 43. Total number of nurses, 158.

It is considered by hospital authorities that the present system of pay would give an adequate nursing service, and as your present complement of beds is 306, including thirty infants' cots, it would seem that the ratio of nurses to patients was not correct. This does not mean, of course, that there are at all times one nurse on duty for every two patients. One must consider the question of

night duty, vacations, time off for sickness, time off for attending classes, nurses delegated to the diet kitchen, operating room, etc.

INCOMES AND EXPENSES

"It was interesting to note that while many hospitals are finding difficulty in securing pupils at the present time, your hospital has more applicants than it can accommodate."

"I would suggest that the report of the combined committee of the Canadian Medical Association and the Canadian Nurses' Association, presented to the government on the nursing situation in Canada, Under Professor W. R. of the University of British Columbia, should be studied carefully when published this fall, as it will undoubtedly deal at length with the question of supply and demand in the nursing profession."

"The income from patients for the same three years was: 1928, \$301,184.58; 1929, \$311,818.00; 1930, \$320,184.29, showing an excess of expenditure over income for 1928, \$7,632.33; 1929, \$6,873.22; 1930, \$23,135.58."

NEED FOR ACCURATE ACCOUNTING

"The marked increase in expenditures for the year 1930 would appear to be in the administration, maintenance, heat and light, repairs and renewals. While a satisfactory explanation of this increased expenditure might be secured in time, the institution of a more accurate accounting system would help to eliminate the waste of money, and the installation of a cost analysis system would bring these facts to light month by month and enable the administration more accurately to keep within a budget."

PATIENTS' FEES

"There is no doubt that the present depression is directly responsible for the decrease in fees collected from patients, and yet on the other hand it would be a positive advantage to have fees set higher than those of the hospital extension if the patients would be willing to pay them.

"There are two schools of thought regarding the establishment of an endowment fund. One school maintains that all legacies should be paid into the hospital, the other suggests that the hospital should receive a portion of the bequests, thirty-two in all, in the absence of any definite campaign of publicity, speaks very well of the generosity of the citizens of Victoria and the interest in which they have held the hospital.

## AN OMINOUS SIGN

AFTER TWELVE MONTHS IN OFFICE the Bennett government engaged in its first test of strength in two by-elections yesterday, one in Three Rivers-St. Maurice, Quebec, and the other in East Hamilton, Ontario. The crucial contest was in the highly-industrialized constituency of East Hamilton, where Labor captured the seat, which had been in the Conservative column for thirty-one years, by the large majority of 3,698, the Independent candidate cutting an insignificant figure in the polling with only 442 votes. The Liberals had no candidate. As this is written the election in the Quebec riding is still in doubt, an early lead of 251 by the government candidate having been cut down to less than fifty, with returns still incomplete.

Latest advices from East-Hamilton show that Alderman Humphrey S. Mitchell, Labor, polled 10,873 votes; Mr. M. M. Robinson, Conservative, 7,177; and Mr. William H. Connor, Independent, 442. The decisive nature of the turn-over in this constituency is emphasized by the fact that in the general election of last year, Colonel G. S. Rennie, the Conservative member whose death last October caused the vacancy, polled 12,893 votes; Mr. Treleaven, Liberal, 8,142; and Mr. Cohen, Communist, 343. So it will be seen that a Conservative majority of no less than 4,751 in July, 1930, has been converted into a Liberal majority of 3,698 in August, 1931, or a vote switch of 8,449.

While the Labor candidate in the Ontario riding was accused of being a "red" and the government candidate's amateur standing in the realm of sport was called in question, the real issue in East Hamilton was the Bennett administration's attitude toward unemployment and the serious drop in the Dominion's trade as the result of the policies it has pursued since it assumed office a year ago. The city of Hamilton is perhaps the most highly-industrialized community in Canada and it has felt the effect of the economic recession more acutely than many other districts. Clearly before the electors was the record of the government—it's uncertainties, its increases in various forms of taxation, its retaliatory tariff boosting, its increase in the public debt, and most important of all, its specific failure to cope with unemployment, which last year it promised to end if it were elected to office.

Whatever explanation Mr. Bennett and his colleagues may offer for the serious reverse in East Hamilton, they can not obscure the ominous fact that a Conservative stronghold considered absolutely invulnerable has fallen within a year, implying that the electors of that constituency realize that they made a disastrous mistake when they voted Mr. Mackenzie King out and Mr. Bennett in. There is good ground for the belief that what happened in East Hamilton yesterday would be duplicated over most of the country if a general election were held now.

A favorable outcome of the contest in Three Rivers-St. Maurice can not offer an adequate compensation for the defeat in East Hamilton. The Ontario riding peculiarly represents the element of Canada's population upon which the Conservative party historically has relied for power. Highly industrialized, it always has helped to furnish the background of the fiscal policy of tariff protection, and it is one of the centres Mr. Bennett had in mind when he presented his tariff programmes last fall and this summer. The plain implication of the government's reverse, therefore, is that the policy specifically designed to meet the peculiar needs of Canada's industrial centres has been a failure. No other conclusion from the revolutionary result of the election in East Hamilton yesterday is possible.

## BRODEUR, FATHER AND SON

IT IS INTERESTING TO RECALL THAT Commander Victor Brodeur of H.M.C.S. Skeena is the son of the late Hon. L. P. Brodeur, who was more closely identified with the creation of a Canadian naval service than any other Canadian statesman, with the possible exception of Sir Wilfrid Laurier, of whom cabinet Mr. Brodeur was an able and distinguished member, administering the Department of Marine and Fisheries.

Hon. Louis Philippe Brodeur was one of the delegates to the conference between the British Admiralty and the Dominions in 1909, out of which arose plans for the establishment of Canadian and Australian naval organizations, the first practical step of which, as far as Canada was concerned, was the loan of the old cruisers Niobe and Rainbow to this country for training purposes. Legislation organizing a Canadian naval service, and calling for the construction of a number of light cruisers, destroyers and submarines, the operation of naval schools at Halifax and Esquimalt, and the creation of a department of naval affairs was adopted by Parliament.

Hon. L. P. Brodeur became the first minister of the new department, while continuing to administer the Department of Marine and Fisheries. Unfortunately, opponents of the government of the day saw an opportunity in the situation for the manufacture of political capital, and the matter became involved in party politics which eventually prevented the realization of the programme agreed upon with the Admiralty. This development was a source of keen disappointment to Hon. Mr. Brodeur, who had worked so tirelessly for the promotion of the new service that he undermined his health. Some years later he became a judge of the Supreme Court of Canada, then Lieutenant-Governor of Quebec, passing away shortly after his appointment to that high office.

The presence of his son as commander of the fine new Canadian destroyer which Victorians greeted so cordially a few days ago furnishes an arresting

sequel to the story of the development of a Canadian naval organization which began more than twenty years ago, and is reminiscent of the able statesman and very fine gentleman who was the first chief of the Canadian naval service and who aspired to give to the Canada he served so well something in the way of naval defence entirely worthy of its importance and promise as the senior overseas Dominion.

## THE SENIORS TEE OFF

ALTHOUGH THE ENTRY LIST IS NOT quite as large as it was last year, 130 members of the Seniors Northwest Golfers' Association commenced their ninth annual tournament at the links of the Victoria Golf Club at Oak Bay this morning. For four days these "young men" from several states of the neighboring republic and from this province will revel in friendly combat—and some will produce a brand of golf of which many a younger expert would be proud.

Victoria has a special interest in this international golfing organization, firstly because Senator G. H. Barnard, a prominent Victorian, is entitled to call himself the "father" of it, and secondly because by majority agreement of the association—with a little passive resistance perhaps from some British Columbia mainland competitors—the annual event must be considered a permanent Victoria institution. Our visitors from the other side of the line argued when this important point was decided that they liked this city and its golf courses so much that it would be a pity to hold the tournament anywhere else.

As the years pass the enthusiasm of those who take part in the competition seems to grow. And the roster, of course, is continually being added to as ardent devotees of the royal and ancient pastime reach their fifty-fifth milestone, for none under this age is eligible to do battle in this select tourney.

The event is interesting, moreover, because it brings together men of many callings. Industry, finance, banking, commerce, and the law are well represented in this year's entry list, while the interchange of view which intimate contact permits is bound to strengthen the cordial relationship which exists between Canada and the neighboring republic.

## FINE COMMUNITY SERVICE

IF THE GOOD old fellows who invented printing could wake up today and see what use is being made of their invention I think they would be glad to go to sleep again. I have before me at the moment The New York Times Book Review, one of the most important and serious publications devoted to the world's new books. The advertisements for new books in it are a charming commentary on the intelligence and the moral cleanliness of this generation. The author of that great masterpiece, "The Sheik," I note, has written another book, from which the advertisement quotes the following chaste passage: "Before she could evade him (the Arab gent, of course), she was lying crushed against his breast, shuddering under the burning kisses that seemed to scorch through to her very soul. Closer and closer he drew her to him until her body ached with the merciless pressure of his strong arms, until at last a gasping cry was forced from her bruised and quivering lips."

EATON AVENUE, STRAWBERRY VALE, AUGUST 5.—BRONWEN NEWELL.

IF THE ANNUAL TOLL EXACTED BY the dreaded disease of tuberculosis in British Columbia gradually declines, as all must hope it will, the Rotary Club of Vancouver need make no apologies for taking some of the credit for itself. Several years ago this organization initiated a campaign for the establishment of a T.B. clinic, an institution which already has done an immensely valuable humanitarian work. Last week the club turned over to the governors of the Vancouver Tuberculosis Preventorium a cheque for \$10,000 to be utilized for the funding of this new institution and its equipment.

As the name of the new body in question implies, this establishment will confine its service to the early study of suspects in order either to prevent the disease getting any foothold at all, or to detect it in its mildest form and direct the patient accordingly. It will devote its attention very largely to the young people, especially those who come in contact with others already suffering from the malady in a more or less serious degree. They will be taught how to protect themselves.

This voluntary service which the Vancouver Rotary Club has rendered to its city can not be too highly commended. It is in more ways than one a reminder from its members that the organization's motto, "Service Before Self," as far as they are concerned, is far from an empty phrase. The club could have set its hands to no more important work than that which is directed toward the prevention and alleviation of human suffering—and of all the ills to which the flesh is heir, that of tuberculosis is one of the most distressing and costly in its annual death roll.

## WHAT OTHER PAPERS SAY

BLAMING THE REPORTER  
The Ottawa Journal

Another of our politicians, confronted by his words in print, has gone back on them, summoned the old stand-by of blaming the reporter. Some day the newspapers will get together and sensibly omit the profound utterances of this class of gentlemen, an action which, in most cases, would be small public loss. Not all of our public men, fortunately, are addicted to this cheap game. One cannot recall, for example, that men like Sir Wilfrid Laurier and Sir Robert Borden were in the habit of getting up and blaming the reporters for words which they subsequently found inconvenient, or which were too much for their courage. In all his years in the House, Laurier, it is told, rose not more than once or twice to a question of privilege. It was so much so, indeed, that one veteran Tory newspaperman cynically remarked that he "stood by the things he didn't say better than by the things he did say."

FOOTBALL AND STUDY  
The Indianapolis News

The Carnegie Foundation, as the result of an extended inquiry, finds that football is becoming—or has become—noticeably less virulent, and that the pressure of alumni for winning teams has greatly diminished. More and more it is being recognized that football is at best a mere side line, and that the university centres in the class rooms and lecture rooms, and not in the stadiums. This means much for education, and its quality. Sanity has been a long time on the way, but it now seems to be at the door—or approaching it.

CHINA  
The Hongkong Press

Canton is in revolt against Chiang Kai Shek. But if Chiang goes who will replace him? Will a Komin-tang committee hold the war lords in check? Will bandits and Communists disown because a government edict goes forth? Is there any man that Chiang will obey? If Chiang wins this time, no doubt his hand will come down heavily. He is excommunicated by his enemies. So also were Cromwell and Lincoln, who succeeded, and the Stuart Kings of England, who failed in similar efforts to impose their will. All of them to some extent deserved execration. What ruler does not? In China's present condition to ask for "democratic" government by "the elected representatives of the Kuomin-tang" is crying for the moon. Only three possibilities lie before China, dictatorship, a continuation of the old struggle between self-appointed leaders, or, as a last alternative, a split-up into a number of small nations.

"DOES LAST LONGER"

## Other People's Views

Letters addressed to the Editor and inquiries about the paper may be sent to the editor. The longer the letter the shorter the chance of insertion. All communications must bear the name and address of the writer, unless publication under the writer's wishes. The publication of the writer's name is a matter entirely in the discretion of the editor. The ability to pay for the preservation or return to the writer of communications submitted to the Editor.

WHAT ADVANTAGES?

To the Editor:—In your editorial on Saturday you advocate a "Greater Victoria."

Any scheme for a union of municipalities which would be effective must show reciprocal advantages.

What advantages would Oak Bay gain by joining Victoria?

HERBERT CARMICHAEL,  
Transit Road, Oak Bay, August 10, 1931.

HORSE SLAUGHTERING

To the Editor:—Canada is sending over to France and Belgium every month 500 old horses for slaughter and food. Anybody familiar with the brutal method of transport and the handling of these creatures animals have to endure cannot but protest.

Their flesh is, in the first place, not fit for human beings to eat after the way they are killed.

Sometimes the overladen boats take more than three weeks to reach the Atlantic. A man on one of these boats described to the writer the neglect and misery prevailing on them.

In this supposedly humane age can nothing be done to prevent this disgraceful business?

BRONWEN NEWELL.

Eaton Avenue, Strawberry Vale, August 5.

RE AMALGAMATION

To the Editor:—A correspondent in the Sunday issue of The Colonist describes the idea of the amalgamation of Victoria and Oak Bay, and cites as one of his reasons the inefficiency of our civic administration as compared to theirs and quotes as among our main advantages an elevator and a swimming pool.

The Colonist's idea of the elevator and swimming pool are essential for port development.

Saanich is an agricultural community.

As the picture of a nude lady, as "the stormy life of a love-mad girl" whose lover died from sinful happiness, but her love was an unquenchable flame.

Through a stormy life this young

lady finds its way, dominating many

love affairs, renouncing a great career,

and finding the vagabond who fled.

Then there is the case of "The Secret Lover." In which, we are told,

"Bachelorhood was no bar to secret amours for Simon Betherley. What adventures fell to his lot! (Lucky fellow.) His mistresses included an aristocrat's daughter, a Chinese girl, a polygamist American wife of the cocktail generation and a ——" (the dashes are taken from the advertisement and I don't know what new horrors they indicate).

WHAT OTHER PAPERS SAY

I HAVE JUST been reading also an address by some eminent Frenchman, whose name, for the moment escapes me, but whose ideas, evidently representing those of many thinking Frenchmen, throw new light on the vexed problem of European relations. This gentleman appeals to his fellow Frenchmen to "have a frank discussion with us" on the subject of European security, and quotes elaborate statistics to show how the birthrate of France is going down. The object of increasing the birthrate and bringing more children into the world, as explained by this gentleman, is interesting. He says that if France doesn't have more children, if it doesn't increase its population, it won't have enough soldiers for the next war. This is the most remarkable argument against birth control which I have yet heard. In other words, the duty of Frenchmen and French women is to produce more children who can be killed off by the improved methods of civilized warfare later on. Unfortunately for this arrangement, the children cannot be consulted in advance regarding their wishes or they might object to it and spoil the whole scheme. There is a still more exquisite feature in this programme. Birth control is attacked as this gentleman, as explained by him, is attacking birth control in itself.

Birth control is attacked as this gentleman is attacking birth control in itself.

He presents in that a step with grave concern. We have a splendid new railway system, to the north we are treated

to sudden changes in temperature,

which frequently come with cyclones,

not only producing conditions in which men and animals live,

across land which has been made treeless and has become dried up through exposure to wind and scorching rays of the sun, we are now treated to long

periods of a heat that is breaking all records, heat so intense that hundreds of human lives have already been lost.

Consequently the number of cattle,

horses, sheep, and other

livestock have died from heat and starvation, while crops and feed over

very large sections have been so completely destroyed that more than two hundred million dollars will have to be raised by taxation in order to alone prevent the starvation of thousands of the people of this continent.

Through the devastation caused by

our woods operations, forest fires,

insects, wind and disease, we are

adding to our devastated areas in

Canada, not less than fifty million

acres annually.

The climate is the "grasshopper"

climate, and it is now rumored in

the corridors of the buildings that at

the next session "bluejay" legislation

will be introduced. It seems these

people are not to be blamed for

the present state of things.

They are not to be blamed for

## FACE COVERED WITH PIMPLES

Now it is Almost Clear—and Her Health is Better

needed courage to make this admission. "My face was covered with pimples." But evidently this woman sympathises with others who suffer the embarrassing condition which troubled her.

We wrote to us entirely of her own accord—giving her name and address, out of sheer gratitude and a desire to help others. This is the letter which we have on our files:

"Some time ago my sister recommended me to try Kruschen Salts for my trouble, as my face was covered with pimples. I am now using my second bottle, and I am delighted with the results. My face is almost clear and feel better in health. I have advised several of my friends to give it a trial, as I want them to benefit the same as have done. You are at liberty to publish this, as I cannot be too generous in my praise of Kruschen salts!"—W. C. S.

"Imples, acne and blackheads are caused by a rundown, disordered system, by those harmful acids and toxins which make your skin break out, so if you want swiftly to rid yourself of that ugly, blemished complexion and to obtain beautiful, smooth and soft skin, use Kruschen Salts. Kruschen Salts are a perfect blend of the six vital salts which nerves, glands, blood and body organs ought to receive non-food if they're to work properly—but it's simply impossible to obtain

## TO ASK COSTS OF B.C. POLICE FOR ESQUIMALT

Negotiations Between Municipal Council and Provincial Force Continue

Data required by the commissioner of the Provincial Police before he would order a survey of the municipality with a view to taking over the work of keeping law and order in it, and authorization for the survey, will be given, the Esquimalt council decided at its meeting yesterday evening. Coupled with the move to furnish the information required, was a clause asking the head of the provincial force to appear before the council at its next regular meeting and state the amount the province would charge for taking over the municipality's police duties.

Whether or not the district would carry on under its present system or would adopt the provincial force was purely a question of costs. Councillor A. Lockley reminded the council that the police had made some move in the matter, the council should take no steps. His move to this effect was made after consideration of a letter from the B.C. police superintendent asking for data.

Although in favor of local autonomy, he stated that the service of the provincial police would tend to lessen the expenses of the municipality, it would be well worth consideration.

Reeve James Elrick, chairman of the police commission, said the commission would do nothing until after the council had moved to the matter.

The clerk was also instructed to inquire of the municipalities which had accepted the provincial police whether or not they had found the B.C. force satisfactory.

These salts in these days of modern cooking! Kruschen provides just that gentle assistance your body organs need to rid your system regularly of all clogging waste matter. When your inside is clean and serum your blood through your veins are pure and uncontaminated. You are healthy and you feel it. Your clearer complexion and your brighter eyes proclaim it. And your persistently high spirits prove it.

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

(ABV)

## TWO ONTARIO BOYS LOSE LIVES

Belleville, Ont., Aug. 11.—Crushed under a miniature avalanche of gravel, the bodies of Harold Wanamaker, ten, and William Christian Loney, ten, Niagara Falls, were found in a gravel pit on the Wanamaker farm near Stirling late yesterday evening.

When the boys failed to return from home, a search party, the gravel pit where they were found, of where the youngsters had been playing. A spot in the pit showed a slide had

occurred and the searchers immediately dug down. The bodies were found under twelve feet of gravel.

## PLAN TO HELP NEEDY WOMEN OUT OF JOBS

Problem of Destitute Women Considered at Meeting at Y.W.C.A.

Many Unable to Keep Roof Over Their Heads, Speakers Aver

With a view to the formulation of plans towards the assistance of unemployed women who are suffering much distress owing to the prevalent depression, particularly those women who, through age or infirmities are unable to secure employment during the present over-crowded state of the labor market, a gathering of representatives of leading women's organizations of the city met in the Y.W.C.A. yesterday.

Mr. Arthur Walsh, president of the Y.W.C.A., was elected chairman with Miss Maxwell of the University Women's Club as secretary. Among the organizations represented were the Women's Canadian Club, the Business and Professional Women's Club, the Social Service League, the Native Daughters of B.C., the Friendly Help Association, Local Council of Women, Catholic Women's League, Graduate Nurses' Association, the Y.W.C.A., and the Victoria Musical Arts Society.

### RENT IS BIGGEST PROBLEM

Mr. Walsh outlined the object of the meeting to Mrs. Isabella Mowatt of the Government Employment Bureau, in reply to questions, gave valuable information as to the number of women seeking employment. Out of a total 312 seeking employment, fifty-four were in urgent need of rent, 177 were of fifty-four, many of whom old or infirm, yet not old enough or had not the residence qualification to secure old-age pensions. Many of them were friendless and were entirely dependent upon their own efforts for sustenance. These women registered at the "lady bureau" were not seeking charity, but were anxious to secure work and were facing destitution, she said.

Miss Pilgrim of the Friendly Help Association said cases brought to their notice included women who were willing to forego wages but would work for board and room rather than depend on charity.

It was brought out by several representatives of welfare agencies that the greatest problem for the unemployed woman was that of keeping a roof over her head, and it was in this that such agencies as the Friendly Help were most anxious to assist. The Y.W.C.A. is giving shelter to a number of such cases, but lack of accommodation and funds prevent its caring for more than a fraction of the women who are in need at the present time.

MANY SEEK JOBS

The meeting also expressed its concern for the women and girls who are the mainstay of families in which there is no male breadwinner, and who are unable to procure employment. Miss Gene MacLeod, secretary of the Y.W.C.A., pointed out that 260 applications for employment were registered with the two typewriting companies in the city. The falling off in tourist traffic had also found reflection in the throwing on to the labor market of a number of girls from the chambermaids. These girls, together with those of the stenographer class, were willing and eager to go into other fields of employment, such as domestic service, but found these occupations overcrowded, while many families were crowded down on available help.

Recreational clubs in view of the overcrowded state of the nursing and teaching professions, a condition which tended to aggravate the problem of unemployment. An appeal was made to the women of the city to do all in their power to assist the situation by purposing to the limit of their ability, thus placing money in circulation and creating employment.

### APPEAL TO HOSTESSES

One suggestion made at the meeting was that while hostesses should be encouraged to continue their entertaining, as this insured the circulation of money, they should be asked to serve less elaborate teas and devote the time thus saved towards the helping of the unemployed women, a practice which costled of much value during the Great War.

The discussion culminated in the formation of the following committee who will carry out certain suggestions and report results to a later meeting: Mrs. Arthur Walsh and Miss MacLeod, Social Women's Canadian Club; Miss H. P. Hodges and Miss Gladys Sunders, and Professional Women's Club; Miss Maxwell, University Women's Club; Mrs. J. O. Cameron, Musical Arts Society; Miss O'Brien, Catholic Women's League; Mrs. W. J. H. Holmes, Local Women; Miss Franks, Graduate Nurses' Friend Help, Mrs. Culham; Social Service League; Mrs. Snyder; Native Daughters, Mrs. T. F. Waters; Girl Guides, Miss Wigley.

### Escort of Dragoons For Royal Couple Now in Ottawa

Ottawa, Aug. 11.—Sightseeing occupied the King and Queen of Siam in Ottawa to-day, Parliament Hill being the chief attraction. The royal party camped at Cadboro Bay. All attending showed meet at Hatt's Hall at 7:30 p.m. when transportation will be arranged. On Thursday evening there will be a plain sewing shower in aid of the fall bazaar at the home of Mrs. William Blair 2753 Avenue. It is hoped as many as possible will attend.

Mrs. Leyshon sent him money from time to time, officers said, and on his release on July 6 he hastened to Portland and was for two days feted by Mrs. Leyshon as her son.

Then, officers said, he stole the family automobile, eloped with the girl next door and was arrested a few days later in Loyalty, Cal.

McCollum read in a magazine while in jail here, federal officers said, an advertisement by Mrs. Leyshon for her son Louis H. Forrest, for whom she had been searching many years. He began writing to her and related a tale of long wanderings, claiming to be an aviator with a war record. He gave his address as the "Hotel Bannock."

"I have dreamed of my mother so long she is an angel in my memory," he wrote.

Mrs. Leyshon sent him money from time to time, officers said, and on his release on July 6 he hastened to Portland and was for two days feted by Mrs. Leyshon as her son.

Then, officers said, he stole the family automobile, eloped with the girl next door and was arrested a few days later in Loyalty, Cal.

Pythian Sisters.—The Pythian Sisters of Island Temple No. 3 held their meeting recently at Hatt's Hall. Miss Lucy Benjallack was welcomed back to the chair after her vacation. After a brief business meeting refreshments were served. The garden party in aid of the fall bazaar held recently at the home of Mrs. Dodd Edwards, Royalton, was very successful. Mrs. McDonald had charge of the home-cooking stall, and Mrs. Monk the fancy work and novelties. To-night the junior members will hold a "hot dog and corn feed" at the hall. The Pythians will be at camp at Cadboro Bay. All attending should meet at Hatt's Hall at 7:30 p.m. when transportation will be arranged. On Thursday evening there will be a plain sewing shower in aid of the fall bazaar at the home of Mrs. William Blair 2753 Avenue. It is hoped as many as possible will attend.

## "What time shall I meet you?"

The day's work finished. But they are still fresh and ready to enjoy the evening. They will tell you that the way to feel fresh is to keep your mouth fresh.

The cool flavor of WRIGLEY'S Chewing Gum refreshes the mouth, sweetens the breath, removes all trace of eating and smoking.

**WRIGLEY'S** Chewing Gum — "after every meal" is recommended by doctors and dentists. It aids digestion... cleanses the teeth.

INEXPENSIVE SATISFYING

## LATE CHIEF IS NOT REPLACED

Esquimalt Police Force carries on with but two members; D. Hodnett Acting Head.

Pending action by the municipal council regarding the policing of the district, the Esquimalt Police Commission yesterday evening took no action to add a man to the force, to replace the late John Aceman, former chief of police. With the possibility of the council bringing in the provincial force, it had thought it wise to install another officer, although members were of the opinion that Esquimalt could not be policed effectively by only two men.

Senior Constable Delmar Hodnett was appointed acting chief for the time being.

Exhibitions of regret were voiced over the death of the chief. The clerk was instructed to write a letter of condolence to the widow.

A motion was also passed asking the police to have one officer around the office more frequently.

## Hope Brightens As Restrictions To Trade Near End

New York, Aug. 11.—Just now plans under way for the lifting of a number of restrictive decrees that have been in vogue throughout various financial centers of Europe, and the early resumption of foreign trade on a larger scale appears quite likely.

### BUG SPRAY CAUSES TROUBLE

Los Angeles, Aug. 11.—Two Japanese gardeners of suburban Englewood received ninety-day suspended sentences yesterday in justice court when it was shown a carload of their celery had caused several cases of illness in Chicago because of too liberal use of a bug spray on the plants.

### Royal Oak

Mr. and Mrs. Wm. Quick, Wilkinson Road on Friday evening entertained the Royal Oak platoon of the Second Battalion Canadian Scottish Regiment. The band, under Captain Phillips, rendered many selections. J. J. Matheson sang, accompanied by Mr. Phillips, who also gave piano selections. Refreshments were served by Mrs. Quick. Other guests included Major Walter Bapty, Lieutenant Wilfrid Greene, Roy Moir, Neil McMillan, Jack McLean, Maurice McLean, Wallace Allison, Ed Crab, George Reeves, James Henderson, George McVie, George Massey, Alfred Campbell, Roy Mezger, Robt. Mezger, George Ewing, James McMillan, John Duncan, Jack Matheson, Gordon Massey, Brodie Quick, Fred Quick, Charles Pimlott and Art Berger. The "Goonies" and their friends will attend the annual ball of the Salt Spring Island detachment of the Canadian Scottish Regiment to be held on the island on Friday.

W. J. Jones, with his daughters, Elsie and Beatrice, and also Miss Pearl Kinard, are spending a vacation at Ocean Park.

Mrs. Massey has returned after spending two weeks on Salt Spring Island.

Mrs. M. Febrerat and daughter, Catherine, are guests of Mr. and Mrs. John Coker at Sards.

Mr. and Mrs. Walter Houghton, of Vancouver, are guests of their son and daughter-in-law, Mr. and Mrs. J. E. W. Houghton, Beaver Lake.

Mrs. Mairn of Shawanavon, Saan., is the guest of Rev. W. P. and Mrs. McCaffie, Wilkinson Road.

Mr. and Mrs. G. McCullough, of Bamerton, spent the week-end as guests of Mr. and Mrs. Miller, Old West

## ESQUIMALT MAY HAVE SHUFFLE

Reorganization of Municipal Staff to Be Considered By Council

Petitions Against Dismissal of Assistant Clerk Laid on Table

Faced by a petition from approximately 135 ratepayers, as well as a letter from the Esquimalt Women's Auxiliary, asking them to reconsider the dismissal of the assistant clerk, and two other communications from members of the outside staff, whose wages they had greatly reduced, members of the Esquimalt council, at their meeting yesterday evening, decided to consider complete reorganization of the municipal staff at the next regular council meeting.

Further communications relating to this matter were laid on the table until the next meeting.

The letter from the two men who had attended to the fire calls and equipment stated that reductions made at the last meeting had lowered their pay, for attending to fire calls, and that they had families to support and this reduction coupled with other cuts in their wages was inflicting a hardship on them.

### SHUT DOWN OF WORKS

Considering the public works report, Councillor A. Lockley moved that not a thing except that which was vitally necessary be done in the municipality. If any work had to be done, it must be done at a good night's wage and the workers must be made to feel much better this morning.

"There is only the garbage collection and sewer inspection to be attended to, how are you going to keep our eight municipal employees on the outside staff busy?" asked the reeve.

At this point, Councillor Lockley moved that the petition be referred to the staff to be discussed at the next meeting. Councillor C. H. Smith seconded the motion, which passed.

The front of the car driven by young Finlayson came in contact with the middle of the side of Mrs. Mutter's car. Finlayson was proceeding west on Fairfield and Mrs. Mutter south on Linden, and they came together in the centre of the intersection.

Mrs. Mutter's car was thrown half

way out of her car, was taken to St. Joseph's Hospital with a cut over the left temple and other lacerations and bruising. She was in a good night's sleep and felt much better this morning.

Mrs. Wade, of Duncan, who was in the car, sustained small cuts, and Miss Isabel Mutter escaped uninjured. Those in the other car escaped unharmed.

The front of the car driven by young

Finlayson came in contact with the middle of the side of Mrs. Mutter's car.

Finlayson was proceeding west on

Fairfield and Mrs. Mutter south on

Linden, and they came together in

the centre of the intersection.

Mrs. Mutter's car was spun round by

the impact, and came to rest upside

down on the side of Mrs. Mutter's car.

Both front wheels were snapped off, the running board carried away, and doors smashed. Finlayson's car was slightly

damaged.

The intersection where the accident

happened has a bad reputation. At

the point Linden Avenue has a steep

grade, Fairchild Road, and an apart-

ment house on the northeast corner

blocks the view.

The Esquimalt Council will seek

the advice of the municipal solicitor

to see if it can end its

agreement with the Victoria Pub-

lic Library as the result of a move-

ment passed at the meeting yester-

day evening. The step will be

taken in an effort to curb the

expenses of the municipality.

At a former meeting the council de-

cided to ask the library board if it

would sever the tie established some

time ago, whereby Esquimalt pays a

certain sum for the use of the library

books.

Yesterday evening it heard a letter

from the board stating that the library

authorities would not seek to renew the

agreement after December 31 but could

not consider breaking it before that

date, since the grants from Esquimalt

were all included in the board's budget

for the year.

REFFERED TO SOLICITOR

Councillor A. Head asked the letter

be submitted to the municipal solicitor.

Three Thousand Take Up Land in B.C. Section in Four Months

In the last four months 3,000 new

settlers have gone to the Peace River

district, and the movement shows no sign of

slackening. Some 1,000 more are expected

next month, and the total will be 4,000

by the end of the year.

Government assistance towards the

erection of a town hall at Fort St.

John has been throughly satisfactory

and the people are looking forward to

the arrival of the first settlers.

## Special to The Times

Lake Cowichan, Aug. 11.—A successful sports day and carnival was held on Thursday, in aid of the boys' camp to be held here shortly. Rev. J. LeBreton was assisted in the organization of the affair by the following committee: Mr. Smith, Mrs. Fred Reid, Mrs. David Madill and Mrs. Herbert Groskleg; sports, Mr. Le Breton and Norman Thomas; judges, Mrs. Duncan Stewart, Herbert Groskleg and N. Thomas; gate, H. T. Hardinge and S. L. Scott; audit, Messrs. Hardinge and Groskleg.

The programme commenced with a fancy dress procession to the softball field, where the judges awarded costume prizes to Mrs. Herbert Groskleg, Miss Jocelyn, Mrs. G. E. Madill, Miss Scottie Ladde. Distribution of ice cream, peanut scrabbles and candy distributions delighted the children.

About 200 people were served with supper after the sports programme. The prizes were presented by Mr. Le Breton, accompanied by the chairman expressing thanks to the various committees, to Mr. Thomas for use of boats and dressing rooms at the Riverside Inn, to J. Smith for donation of ice cream, and to Stanley Gordon for loan of his boat. The following evening, supper at the Youboth softball team arrived and played a game. The takings amounted to \$72.60 and the expenses totaled \$40.02, including the cost of the prizes, many of which are on hand because of lack of time to complete the scheduled programme.

Winters were:

Boys: 50 yards—8 to 12 years—1. Jimmie Hatter; 2. Alex. Gillespie.

Boys: 50 yards—13 to 16 years—1. W. Hope; 2. Alex. Gillespie.

Girls: 50 yards—8 to 12 years—1. Barbara Winslow; 2. Joan Scholey.

Girls: 75 yards—13 to 16 years—1. Lillian Castley; 2. Marie MacLennan.

Young men: 100 yards—17 to 20 years—1. Eric Smythe; 2. Goldie.

Men: 100 yards—21 years and up—1. J. Bromley; 2. Kenneth Castley.

Ladies: 100 yards—21 years and up—1. Irene Castley; 2. Mrs. Sam Alexander.

Boys: Under school age—1. Robert Miller; 2. Ronald Scholey.

Girls: 50 yards—13 to 16 years—1. Mabel Campbell; 2. Gertrude Barker.

Boys' broad jump—8 to 12 years—1. Alex. Gillespie; 13 to 16 years—1. Alec Olson; 17 to 20 years—1. E. Strang.

Boys' high jump—8 to 12 years—1. W. Hope; 13 to 16 years—1. W. Hope; 17 to 20 years—1. E. Smythe.

Ball throwing—12 to 16 years—1. J. McMillan; 17 to 20 years and up—1. E. Strang.

Boys' obstacle, 100 yards—8 to 12 years—1. Walter Miller; 2. Malcolm Gillespie; 13 to 20 years—1. W. Donald; 2. Alec Olson; 21 years and up, 1. Alec Olson; 2. Goldie.

A high caloric diet is necessary particularly for those who want to gain weight rapidly, in people who are undernourished, after chronic disease such as rheumatism and typhoid.

Such diets must provide moderate bulk, but foods that are easily and readily digested, and which will cause very little gastric disturbance.

A high caloric diet in these cases means from 3,000 to 4,500 calories daily, but it is understood that a person requiring such a diet takes only moderate exercise.

It must be remembered at the same time that calories are only one aspect of the diet. The diet must include a reasonable protein and fat content, as well as vitamins and mineral salts.

Fats and sugars must be depended on primarily for the increased carbohydrates. Foods providing these carbohydrates are drinks like chocolate egg and milk shake, orange juice containing the whites of eggs, hot chocolate, rich vegetable soups, bread fast foods with a high content of meal, bacon, ham, sausages, etc., and toppings on rich salads. Sometimes patients who have been unable to eat more than 1,200 calories per day on account of lack of appetite can learn to take 3,200 to 4,000 by the encouragement that comes from well selected foods properly prepared.

Sugars are, of course, the most concentrated carbohydrates. Sugar is the chief fuel food. It represents about 19 per cent of the fuel that everyone uses. If sugars or sweetened substances are taken previous to a meal they tend to take away the appetite. Therefore, it is undesirable to eat candy or pastries between meals, whereas taken as a dessert they have the particular value of making a meal seem like a meal.

It is reported that over a billion dollars was spent for candy in the United States in 1926.

The contrast in the sugar intake is emphasized by the fact that the average consumption per person per year was eleven pounds in 1895, compared with 107 pounds in 1926. Although a person may live on a diet largely of vegetables, there is no combination of vegetables that will furnish enough protein to the body without giving too much carbohydrate or fat. The body is burdened with the burdens on the digestive organs when these organs are not endowed by nature with the equipment to handle a one-sided diet.

A high caloric diet is necessary particularly for those who want to gain

## THE SPORTS MIRROR

Senior Golfers Enjoying Annual Week of Play in Victoria

St. Louis Cardinals Top Major Leagues and Strengthen Lead

Cleveland and Chicago Cubs Share Slugging Honors for Week

Five Inches Meant \$500 and Winning of Tourney to Horton Smith

FOR THEIR annual week of golf over 125 senior golfers are in Victoria today. But the British Columbia veterans tied to the links of the Victoria Golf Club for the eighteen-hole qualifying round of the championship. The seniors' tournament is about the most popular golfing event on the continent. This is one tournament where the competitors play golf and have a good time doing it. While on the links the veterans take their game fairly seriously, but after the day's matches are over they have a good time.

Victoria has proved so popular with the veterans that they have named this city as the permanent scene of their tournament. A few years ago it was decided to hold it in Victoria every year. The seniors are like one big family, meeting at a yearly get-together, and they talk over old times.

The St. Louis Cardinals did a little more towards consolidating their position at the top of the National League standing last week by compiling a great record, which led both circuits for the seven-day period which ended Saturday. The first five of their wins, led both major leagues in scoring and in defense, were a close second to the New York Giants in the totals and shared the league fielding lead. St. Louis scored 56 runs in six games to 17 for its opponents, hit safely 88 times and made only five errors.

The Giants, who finished second in the National League with five victories and three defeats, made eighty-nine hits, but only one error. The Phillies beat them by one run for second place in the scoring column. Cincinnati, which checked in last with only one victory in eight games, got by with only five errors, as did Cleveland and Boston in the American League. Washington's Senators outdid all rivals in the field, having only one error in five games.

### Von Elm Defeats Billy Burke In Exhibition Match

Cleveland, Aug. 11.—George Von Elm, who recently lost the United States open golf title to Billy Burke, yesterday turned the tables on his conqueror in an eighteen-hole exhibition match at Beechmont Country Club here.

Von Elm cut three strokes from par to beat the second man to edge out Burke by a medal score of 72 to 75. Burke had a two-stroke advantage on the outgoing nine, carding 37 to 39, but slipped to 38 coming home, while Von Elm made three birdies and six pars in 54 U.S. PLAYERS IN

Or twenty-eight entrants from the United States only six qualified.

Twenty-two Canadians represent Canada from Quebec to British Columbia. None of the entries from the Maritime Provinces managed to qualify.

Play started this morning at 9:30. Somerville and Fenwick teed off at 10:30 o'clock. To-day's play will be thirty-six holes eighteen in the morning and eighteen in the afternoon, starting at 2:30 o'clock.

**MORRISON IN FRONT**

Bob Morrison, Uplands Club, Victoria, and Ken Black, Shaughnessy, Vancouver, led the British Columbia contingent with scores of 154. The former had two 77's, while the latter went around in 75 in the morning and 79 in the afternoon.

Freddie Wood, Vancouver, was next in line, adding 81 to his shaky 81 in the morning.

Harold Brynjolfson, British Columbia champion, of the Uplands Club, Victoria, had a poor 81 in the morning, but shot a 78 in the afternoon to make the select group.

John E. Morrison, captain of Victoria, and captain of the British Columbia team in the morning carded an 87 and in the afternoon an 80, for a total of 167.

Don Gowan, the Vancouver city champion, shot an 89 in his morning round and then failed to turn in an afternoon card.

Last qualifiers and their thirty-six-hole scores follow: C. R. Somerville, London, Ont., 142; John B. Nash, London, Ont., 149; Jesse Guilford, Boston, F. G. Hoblitzel, Toronto, 150; Carson MacWilliams, Winnipeg, E. A. Innes, Montreal, N. G. Taylor, Toronto, 151; D. Arnott, Winnipeg, 152; F. Corrigan, Ottawa, Arthur Yates, Rochester, N.Y., Phil Parley, Toronto, 153; J. Van Norwicke, Wheaton, Ill., J. Mountfield, Edmonton, Robert Morrison, Victoria, Ken Black, Vancouver, Jack Cameron, Nico Thompson, Toronto, J. J. McDonald, 154; H. B. Jacques, Montreal, Bob Reith, Winnipeg, G. B. M. Taylor, Montreal, T. G. McAttee, Montreal, 157; F. J. Wood, Vancouver, D. Luther, 158; H. Brynjolfson, Victoria, D. W. Ryan, Williams, Ryan, Detroit, 159; G. T. Fenwick, Montreal, W. V. Yule, Montreal, 160; D. Ferguson, Montreal, 161; R. Costello Jr., Montreal, 162.

## LAWN BOWLING TEAMS TO SEEK LEAGUE TITLE

Burnside and Victoria Play-off To-night For Greater Victoria Honors

Winner Will Gain Possession of Cameron Nichol Cup; Novelty Match Arranged

This evening at 7 o'clock, the Burnside team will meet the Victoria Club team on the Crystal Garden green to decide who is to hold the Cameron Nichol Cup, emblematic of the Greater Victoria League championship, for the coming year. This is a play-off game, necessitated by the two teams being tied for top place in the league and should be a very interesting fixture.

A novelty rink game has been arranged by the games committee of the Burnside team to be played there to-morrow evening starting at 7 o'clock. This is in the nature of what is known as an "invitation" game for sixteen fours, and the following skips from other clubs have been invited to bring rinks over to Burnside to try to edge the bacon which will go to the winner.

Victoria skips—R. Tuthill, T. Renfrew, H. M. Wright and F. Davey. C.P.R. skips—W. Wood and J. Robb, Victoria West skips—N. Fraser and C. Rose.

The Burnside rinks as selected by the games committee follow:

Childs, Kinsey, Pass and Hawkins (skip).

Holmes, Myers, Sinclair and Hawkins (skip).

Spencer, Bryant, Stewart and Tupman (skip).

Proudfoot, Halladay, Hartman and Mercer (skip).

Findlay, Handley, Gibson and Davidson (skip).

Bennett, A. Nother, Meadows and Ramsay (skip).

F. Johnston, A. N. Other, Deveson and Patterson (skip).

MUCH THE BEST

Some 150 rounds of 70 and 72 were made by the best of the club. A total of 142 stood high on top of the heap, full seven strokes above his nearest rival, John B. Nash of London, Ont., 1929 Ontario amateur champion, who had a total of 149. One stroke back came two veterans of international competition, Fred G. Hoblitzel, Toronto, and Guillermo Arce, Boston, former United States amateur champion. Deadlocked at 151 came Carson MacWilliams, of Winnipeg; E. A. Innes, Montreal, and Gordon Taylor, Jr., of Toronto, an 152, David Arnott, Winnipeg veteran, stood alone.

The qualifying match necessary yesterday to decide one of the highest in the history of the competition. Last year, at the London Hunt Club, a mark of 156 was required.

Somerville's cards follow:

Morning—

Out ..... 443 445 344—85

In ..... 443 454 454—85—70

Afternoon—

Out ..... 443 444 352—85

In ..... 443 434 465—85—72

Par for the course follows:

Out ..... 543 444 453—85

In ..... 443 434 455—85—72

Cross and Bull Win Consolation Games at J.B.A.A.

G. Cross and C. Bull won in straight sets from Bill Dillabough and H. Ward in the men's consolation singles in the J.B.A.A. tennis tournament yesterday evening.

Cross took Dillabough into camp 6-1,

6-4, while Bull scored a 6-2, 7-5 victory over Ward.

The draw for this evening follows:

5:30 p.m.—Miss Underwood and Poyntz vs. Miss Drysdale and Hall;

Mellor vs. Cross.

YACHTS START CLASSIC RACE

Sixteen British, U.S. and French Craft in Event From Cowes to Fastnet Rock

Cowes, Isle of Wight, Aug. 11.—John Baldwinson, 10½ points to 8½. The northeners took the singles, 7 to 6, and the foursomes, 3½ to 2½, Saturday. Victoria lost to Ingleside, 11 to 5, and on Sunday went down to defeat before Rainier, 2½ to 1½.

## Colwood Golfers Score Victory In Match at Seattle

Seattle, Aug. 11.—The visiting golfers from the Royal Colwood Club, Victoria, yesterday defeated an American team, 10½ points to 8½. The northeners took the singles, 7 to 6, and the foursomes, 3½ to 2½, Saturday. Victoria lost to Ingleside, 11 to 5, and on Sunday went down to defeat before Rainier, 2½ to 1½.

WORKMAN LOSES LIFE

Winning, Aug. 11.—John Baldwinson, twenty-four, was fatally injured yesterday at the store where he was employed. Baldwinson was stationed on a freight elevator with a wagon load of sugar when the vehicle rolled against him, crushing him against the elevator's side.

London, Ont., Aug. 11.—Bermuda Wonderers yesterday secured a seven-inning victory over eleven consisting of combined forces of western and southwestern cricket leagues. The score was 100 to 93.

Bermuda Cricket Team Scores Win

London, Ont., Aug. 11.—Bermuda

Wonderers yesterday secured a seven-

inning victory over eleven consist-

ing of combined forces of western

and southwestern cricket leagues.

The score was 100 to 93.

## To-day's Grain Markets

### WINNIPEG

(By Logan & Bryan)  
Winnipeg, Aug. 11.—During the first half of the session grain markets continued their upward trend to-day on the extra bushels of 1% to 1 above the close last night, the nearby month being the strongest. At the start there was some good mixed buying, mills and commission houses being in the market while Chicago was also buying Winnipeg. The upturn, however, was not held, the market easing off and getting well under the previous close, especially the May future.

At top levels, October was about 7 cents over Chicago September and this brought in some spreading. Canadian demand was very good. There was nothing of importance done by local exporters over night. Domestic flour trade continues rather light but some improvement in export circles is shown and mills are working on a somewhat larger scale than for some time past.

Russia continues to offer wheat freely and sold an additional 25,000 tons to the United Kingdom to-day. A cable from London advised that chartering by Russia estimated approximately at 2,000,000 tons, which is equal to about 70,000,000 bushels. On the other hand there are what are considered reliable reports that Russian crop yields are generally steady below average, while the official projections indicate, with the spring crops generally reflecting the ill effects of late sowing. Bradstreet's world visible wheat increased 11,698,000 bushels. Bradstreet reported a very limited business over night, but it was estimated that French wheat will be taken again shortly as well as the Orient.

Cosmetics—These markets somewhat lower and generally quiet, both cash and futures. Outside of a little export business in barley there was very little doing. Oats closed 3% to 1% over yesterday 4% to 5% lower and rye half lower.

Fax—This market was again strong, closing 4c to 5c higher. Outside markets were strong, and the U.S. government report on flax was quite bullish, as it was on spring wheat.

Livestock due 4% to 5% lower on Winnipeg.

**Dorothy Dix's Letter Box**

EAR MISS DIX—I am looking for a girl to fulfill an ideal and I seem unable to find her. I want this girl to be a good pal, sympathetic, fairly-looking, to like outdoor sports and, above all, to look at things from standpoint, realize the struggle a fellow has and encourage him to it and win, encourage him to bigger and better things. Show interest in various ways—help to figure means of working up and advancing himself. If I ever find such a girl and can "sell" myself to her, the minister is going to have a job. I have a great influence over men if they would only use it to help chaps such as I they could have a pick of husbands. PAUL.

**Answer**—You certainly redeem my faith in the young men of the country, Paul, because from the innumerable letters I get from girls telling me what their boy friends demand of them I was beginning to wonder if there were no more young men with high ideals and serious ambitions left in the country.

I felt that there must be many young chaps who are struggling and working and who have hitched their wagon to a star and who mean to make something of their lives and who are determined to be the big and important of twenty-five or thirty years hence. And I felt that these boys must be girls who would be an uplifting influence in their lives, girls who would be stimulating companions, and who would see what they are trying to do would help them on to their goal.

But the girls have written to me and assured me, as with one voice, that boys don't want serious-minded girls or girls who are what we used to call a "good influence." They say that boys regard that sort of girl a flat tire and avoid her as they would a leper, and that unless a girl will drink and pet and smoke and do pretty much all the things a nice girl is not supposed to do, she never has any dates.

and these girls demand to know where they can find boys who will respect them and who like a decent girl, just as you are asking where a boy can find an ideal girl. So why don't you try to get together?

The search is up to you, boys, because the kind of girl you desire doesn't run after men. You will have to hunt her down, for she will never chase you, and the only tip I can give you is not to hunt for her in night clubs or public dance halls or speakeasies, or parked automobiles.

In the old mid-Victorian days a great deal used to be said about "woman's bad influence." You never hear the phrase used now. Perhaps women have grown too cynical to believe in it, but, all the same, it exists and it is potent with men. No matter how sophisticated a man becomes nor how independent and self-sufficient he thinks he is, every man's conduct is profoundly affected by the women with whom he is most closely associated. His wife puts her indelible stamp upon him and as long as he lives he looks things from her point of view. His sisters color his opinion of all women, in the end some woman either makes him or breaks him.

It has been truly said that there is always a woman behind the door of every man's success, and when a man falls it is nearly always some woman's hand that pulls him down. Many a boy flunks at college or bows down on his job because of some girl who is always demanding to be taken places. Many a boy steals to get the money to gratify the desires of a gold-digger. And many a girl breathes ambition into a boy who could have none except for her; many a girl braces a weakling up with her strength; many a girl teaches a spendthrift to save, and literally pushes an also ran into the ranks of the winners.

Whatever women are, they are that way because they think men want to be that way, for women have always had to please men in order to hold them. Therefore, if girls appear frivolous and light-minded, it is because their observation shows them that it is the wild girls who get the attentions from men. Personally many of them loathe all this kissing and hugging and drinking and would rather be ladies than whoopee makers.

So if you boys want the kind of girls who will be sympathetic and encouraging and an uplifting influence in your lives, all you have to do is just to pay the old-fashioned girl some attention and encourage her. DOROTHY DIX.

EAR DOROTHY DIX—Thirteen years ago my husband and I adopted a little girl of four. Her mother was a fine woman, but her father was a dissolute dancer and this girl seems to have inherited his gift; for she is as crazy. We live in a small town where the girls are permitted to go out from the time they are fifteen, and to go out and stay out late night with boys, but we have never permitted Jean to go to a dance and require her to be at home by 10:30 at night. Yesterday was her seventeenth birthday, and for a present she asked to be allowed to attend a dance and our little later, as she said the boys did not like to go out with her. She had to be at home so soon and because she was not allowed to go. We refused this request and it made her furious and she has not been to us for two days. She has never done this before. Always been good-tempered and amiable. What should we do?

A PUZZLED MOTHER.

**Answer**—Relax your discipline a little. You are entirely too strict with the girl, and you will drive her into a state of rebellion that will make her do something that will ruin her whole life and bring sorrow upon you, if you persist in cutting her off from the pleasures of her time life and from the privileges that the other girls with whom she associates enjoy.

Try to realize that you cannot deal with girls and boys of to-day as your parents dealt with you, and that the rules of conduct that apply to youth now are not what they were when you were a girl. Also try to remember that you do not keep your child from doing what the other children are doing. Each generation has its own code, its own customs, its own standards of conduct. When you try to force the point of view and the manners and habits of your generation on the modern one, you are attempting the impossible. The only result will be to make your child consider you a grinding tyrant.

DOROTHY DIX.

PAUL SEES THE ROCKET  
Yesterday Dr. Arthur Dawson, a kettman of the year 2031, promised to show his son Paul, the new and roved rocket which was to be used in a journey to the planet Pluto, perhaps even beyond Pluto.)

"What a rocket!" exclaimed Dr. Dawson as he viewed, for the first time, the giant rocket, which had been named the "Spirit of Freedom."

Dr. Dawson and son had traveled from Winnipeg, Canada, to London, England, and a small rocket in half an hour.

"How long will the trip to Pluto take?"  
"Six days, if all goes well. Our new rocket is designed to travel at the speed of light after it gets a million miles away from the earth."

Paul knew the speed of light to be a little more than 186,000 miles per second, and he cried, "Wow! What speed for a rocket!"

"Yes," said Professor Richardson, "by a new process of using the energy of atoms, we hope to travel at the highest rate ever traveled by man. We have a barrel of atomic-engine fuel on board. That would be enough to take us to the North Star and back, with plenty of fuel left over."

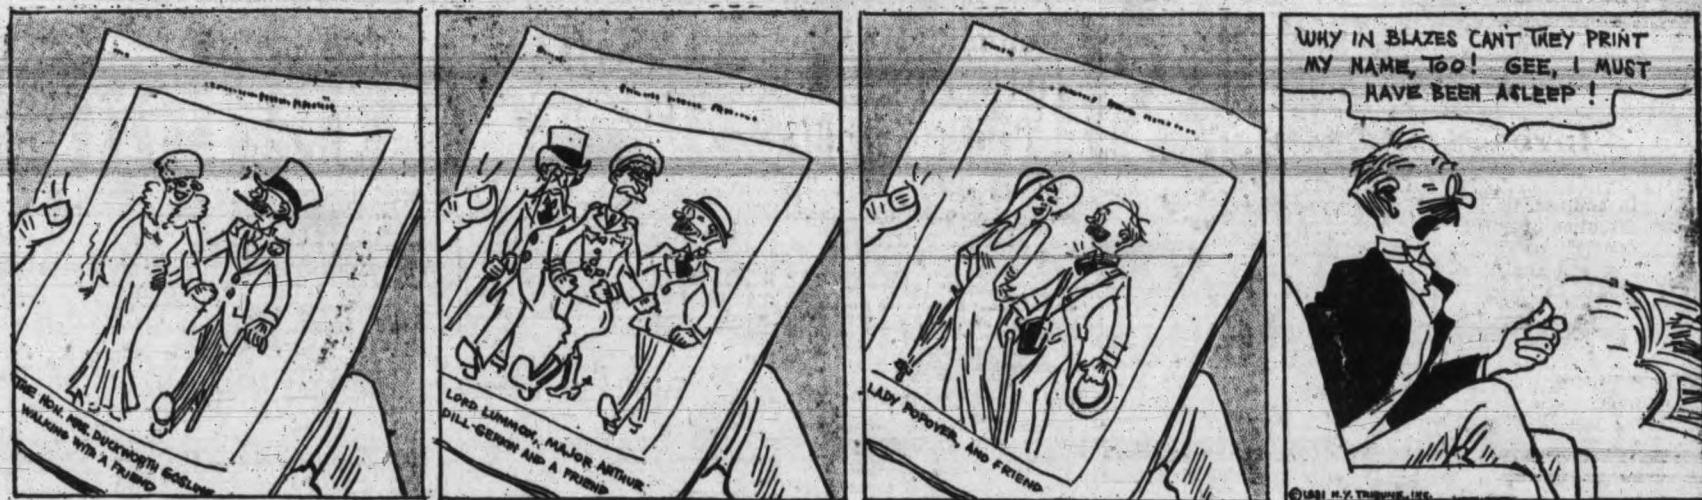

The more Paul learned about the rocket, the more he wanted to go on the trip to Pluto.

## President Taft Leaves \$1,000,000 Cargo Here

Much Raw Silk on Rithet Piers To-day Awaiting Arrival of H. F. Alexander This Evening; Liner Had Good Trip From Orient and Brings Fair Number of Passengers

Another large and valuable cargo of raw silk from the Orient was left at Victoria this morning by the American Mail liner President Taft when she docked at 7 o'clock from ports in the Philippines Islands, China and Japan. Nearly 1,500 bales, valued at approximately \$1,050,000, were left on the Rithet piers. This evening at 9 o'clock, this cargo will be put aboard the liner H. F. Alexander for San Francisco, where it will again change ships, being listed to go as freight on the Dollar Line's President McKinley through the Panama Canal to New York. Every second week a large amount of cargo is left here for transhipment to the south. A total of 400 tons of cargo came off the Taft at Victoria this morning.

Capt. K. A. Ahlin has made his last transpacific voyage on the Taft. When he reaches Seattle this evening he will pack up his belongings and leave after a short holiday, for New York, where he will take command of the new Dollar liner President Coolidge, which will make her maiden voyage in October. Capt. Ahlin reported a good trip from Yokohama. The weather had even been hot at times, he said, which was rather unusual for the north Pacific, he explained.

### VARIETY LIST

There were thirty-nine cabin passengers and ninety steerage aboard the liner this voyage. Two cabin and four steerage staterooms in the group included four babies, left with their mothers while the remainder proceeded to Seattle. A feature of the passenger list was the large number of business aboard, among whom were H. V. Bleaskey of Tokio, en route to London; Stanley Phillips, connected with the Findlay Motor Truck Company of Manilla; Samuel Dimitrovsky, for buyers of Tientsin, en route to New York City; mess visit to the Far East.

### Spoken By Wireless

August 10, 5 p.m.—Shipping EMPRESS OF RUSSIA, Yokohama to Victoria, 2,900 miles from Victoria.  
PRESIDENT TAFT, Yokohama to Victoria, 20,000 miles from Victoria.  
RUTH ALEXANDER, Victoria to San Francisco, 480 miles from Victoria.  
YOKOHAMA MARU, Japan to Victoria, 1,524 miles from Victoria.  
HAKUATSU MARU, Yokohama to Seattle, 2,000 miles from Victoria.  
KOYO MARU, Yokohama to Vancouver, 190 miles from Vancouver.  
YAMATO, Honolulu to Victoria, 1,000 miles from Victoria.

August 11, 12 noon—Weather: Estevan—Cloudy; southeast: light: 30.06; sea: smooth.

Pacific—Rain: calm: 30.12; 53; sea: light swell; foggy seaward.

### SEATTLE SHIPPING

Seattle, Aug. 11.—Representatives of the Dollar Steamship lines, the Luckenbach Steamship Company and the Panama-Pacific lines announced yesterday they had met not the cut in rates on canned goods, dried fruits and vegetables, which recently went into effect.

The reductions are: Canned goods from forty cents to thirty-five cents; dried fruit from forty cents to thirty-five cents; beans from forty cents to thirty-five cents; a hundred pounds in carload lots from Pacific Coast ports to the Atlantic seaboard.

The four companies were in a four-party agreement previously.

## "NANUK GIRL" FLIES HERE

Marion Swenson, Who Was Ice-bound on Nanuk, Comes Here in New Airplane

Marion Swenson, Seattle, the "Nanuk Girl," who spent long cold months aboard her father's fur-trading ship Nanuk, frozen in at North Cape, Siberia, was a visitor to Victoria over the week-end in a more modern, faster and more convenient Nanuk. In a new seven-passenger airplane, bearing that famous name, piloted by Frank Borland, and carrying also her parents, Mr. and Mrs. Olaf Swenson, and her sister, Marjorie, Miss Marion flew Saturday from the Swenson summer home on Bainbridge Island to Victoria, landing in the inner harbor and spending the night here.

On Sunday the party hopped over to Bates Island in the lower portion of the Gulf of Georgia, where they were the guests at the summer home of Dr. and Mrs. G. Barlow. Yesterday they returned to Seattle.

Borland is famous in the north as an aviator of daring and skill. He was the first flier to arrive at the ice-bound Nanuk. The next day he was followed by Carl Ben Eielson and the planes returned together. Attempting a second crossing, Don MacLean, pilot, had bad weather and Eielson was killed.

"Flying is the one thing I like to do best," said Miss Swenson when she returned to Seattle from her week-end flight to Victoria. "Ever since I flew out from the Nanuk to Nome I've wanted to be a pilot."

The reductions are:

Canned goods from forty cents to thirty-five cents; dried fruit from forty cents to thirty-five cents; beans from forty cents to thirty-five cents; a hundred pounds in carload lots from Pacific Coast ports to the Atlantic seaboard.

The four companies were in a four-party agreement previously.

### LOCAL WARSHIP HONORED GUEST

Much Entertainment Planned For Crew of H.M.C.S. Vancouver Now in Seattle.

Seattle, Aug. 11.—The men aboard H.M.C.S. Vancouver of Esquimalt, now at anchor in Elliott Bay as a guest of honor at the Fleet Week celebrations here, are not lacking entertainment. The Seattle Chapter of the American Order of the Sons of St. George and Alexandria Lodge of the Daughters of St. George have seen to that.

Prominent among a number of events the two lodges have arranged for the entertainment of warrant officers, non-commissioned officers and enlisted men, as is the custom at the Seattle Yacht Club Thursday. To this the officers of the Vancouver and the ranking officers of the United States navy have been invited.

This evening all officers and men are invited to attend a dance at Moose Temple. Chief petty officers of the crew have also been invited. To-morrow in a stag dinner complimentary to officers and enlisted men is to be held at the A.O.U.W. Building.

On Thursday evening the Canadians have been invited to a dance at Dougall Hall. Odd Fellow Temple, which will be given under the auspices of the May Queen Post of the American Legion.

On Friday, August 14, a cricket match will attract the visitors to Jefferson Park. The contesting teams will be made up of men from the Canadian destroyer and from the Seattle lodge of the Sons of St. George.

Seattle, Aug. 14.—A cricket match will attract the visitors to Jefferson Park. The contesting teams will be made up of men from the Canadian destroyer and from the Seattle lodge of the Sons of St. George.
